**NP-3333** 

M. Sc. (Biotechnology) Examination, November-2019

## TOOLS AND TECHNIQUES OF BIOTECHNOLOGY

(H-104)

M. Sc. (Bio-Tech.)

Time: Three Hours]

[Maximum Marks: 50

Note: Attempt questions from all Sections as per instructions.

Section-A

(Very Short Answer Questions)

Note: Attempt all the *five* questions. Each question carries 2 marks. Very short answer is required not exceeding 75 words.

5×2=10

- 1. Why 2D elecrophoresis is better than SDS PAGE or IEF alone?
- 2. Explain the principle of "density gradient centrifugation technique". How can it be used for separating different cellular components?

NP-3333

[P.T.O.]

https://www.ccsustudy.com

3. What are the applications of analytical ulltracentrifugation in biology? How sedimentation co-efficient and density of a protein are related?

4. Why NMR is called "Nuclear Magnetic Resonance" and not simply nuclear magnetic spectroscopy?

5. Define radiation dose?

## Section-B

(Short Answer Questions)

https://www.ccsustudy.com

Note: This section contains three questions. Attempt any *two* questions. Each question carries five marks. Short answer is required not exceeding 200 words.

2×5=10

- 6. Write short note on ultracentrifugation?
- Differentiate between U.V. visible absorption spectroscopy and fluorescence spectroscopy.
- 3. Explain the mobile and stationary components of HPLC?

NP-3333

## Section-C

## (Detailed Answer Questions)

Note: This section contains five questions. Attempt any three questions. Each question carries 10 marks.

Answer is required in detail. 3×10=30

- 9. Define microscopy? Describe the structure, principle and working of SEM and TEM?
- 10. What are the principles and applications of PAGE? Differentiate between Agar Gel electrophoresis and SDS-PAGE. https://www.ccsustudy.com
- Briefly explain the principles of different types of spectroscopy along with their applications in Biotchnology.
- 12. Define radioactivity. What are the different types of subatomic particles released from naturally occuring radioisotopes?
- Describe briefly the principle and techniques of centrifugation. Also mention the types of centrifuges.
